

Subject: Wood's manuscript containing
coin rubbings

Schaade, A. (?)
[Director, Khedivial Library
Cairo, Egypt]

1913-1914

October 18th, 1913.

Dear Sir:-

On the 8th of October 1912, I sent to Dr. Moritz a manuscript with rubbings of the coins struck at Omdurman by the Dervishes asking for further information on this series from the specimens in the Library collection.

On the 18th of November 1912, Mr. J. W. Crowfoot, Inspector, Ministry of Education, wrote me acknowledging receipt of my manuscript and said that until the successor was appointed it would be difficult to execute my request. He begged, therefore, the privilege of retaining my rubbings for a few months until proper steps could be taken to send me casts and rubbings of such other specimens as the Khedival Library might possess. Since then I have heard nothing further, and am writing to see if anything, as yet, has been done. If it is not possible to compare my manuscript with the collection in the library, could you not return it. At the time of my first writing I was living in Brookline, Massachusetts. Now I am in New York at the address at the top of this sheet.

Thanking you in advance for whatever you can do, and apologizing for any bother I might have put you to, I beg to remain,

Your obedient servant,

Curator.
